Comments:

Should minimum continuing education be required for HVACR Registrants?

YES NO

If you answered yes, how many hours a year should a Registrant spend attending approved continuing education?

_____ Minimum Number Hours in an Approved Class Per Year

Comments:

The State HVACR Board is working to adopt a Plan Review Process. This would be a program that would require HVAC plans to be submitted to the HVACR program for code review and approval before construction could begin. The board has started a committee to determine the process and the type of HVACR work that would classify under this requirement.

Would you generally be in favor of this program?

YES NO

Comments:

Would you be in favor of raising the HVACR License Fees - Class A, B, C, D, E, and/or Registrant)?

YES NO
